8m

Volex Manufacturing Facility

Description

First Phase: New Manufacturing facility with office area to the front for Volex Corporate Headquarters.

Steel Framed building, with cladding to the manufacturing area. The office section was steel frame, finished with a specialist coloured render system to the front elevation.

The fit-out was high standard with hardwood joinery and a glazed atrium. A large carparking area was constructed to the front for the 300 employees.

Phase two consisted of an extension to the manufacturing facility.
