HSE North West (Sligo)

Architect:
Rhatigan Architects (Sligo)

Quantity Surveyors
Albert Strain & Associates

Duration:
November 2014 - October 2015

Contract Value:
€2 million

Sligo Regional Hospital Medical Academy

Description

The project involved the Design and Building of an Under Graduate Training centre at Sligo Regional Hospital in association with NUI Galway. The facility extends to 746m² and is located on levels 7 and 8 of the existing hospital. The extension provides an onsite educational facility for student health care professionals. The development is located immediately above the existing educational facility on level 6, which includes a library and small lecture room and places educational activity at the centre of the hospital. The development benefits from the existing lift and stairs infrastructure and provides a state of the art facility to enhance the existing educational programme.
