

St. Patrick's College Sports Hall

As part of a €35m campus development comprising of 2 new teaching blocks with lecture theatres, workshops and cafe, the project also involved a new sports building of approximately 960m², including sports hall, gym and changing facilities.

The glazing consists of a curtain wall system at high level to both sides of the gym. Internally, the floors are finished in vinyl, with the gym floor being finished with a Junkers timber floor.
