

Richmond Road Residential Development

Richmond Road consists of 40 social housing apartments over a basement car parking in Dublin's city centre. The project included a new pedestrian/vehicular access road from Richmond Road at the North-West end of the site.

Client
Co-operative Housing Ireland

Architect
Walsh Associates

Value
€10.3 million

Photovoltaic cells were installed on the roof and all apartments through the complex were commissioned with LED lighting. Works also included the demolition and removal of the existing ESB – station, and the construction of a new sub-station, concrete foot paths and boundaries to the front and rear of the site.
