

IDA Advance Office Building, Sligo

Works consist of the development of a 4,465sq.m Advance Office Building for IDA Ireland at the IDA Business & Technology Park Finisklin, Sligo.

Designed to provide high quality office accommodation, the project involves the construction and completion of the Advance Office Building, including reinforced concrete, foundations and ground floor slab, blockwork and RC rising walls. The unit will be completed to Category A level fit-out in the office areas.
